Location

Silver lake is considered one of the most beautiful lakes in Serbia. It is 14 kilometers long and ideal for swimming and water sports, and together with the Danube, from which it is separated only by an embankment, it represents a real little paradise for fishermen. It is an ideal starting point for a tour of all the beauties that Eastern Serbia is proud of - from the Đerdap National Park, through the archaeological site of Lepenski Vir and Viminacium, to Golubačka and Smederevo fortresses, Tuman and Nimnik monasteries...
